Shaving Creme

Lather is everything when shaving with a straight razor. The cardinal rule is to never let the lather dry or become too thin, or your razor won't work. Dip a badger hair shave brush in warm, not hot, water and use it to apply emulsified shave cream and water as a thick lather to your beard. Allow the lather two or three full minutes before shaving to soften the hairs. Apply another layer of emulsified cream and you're ready to rock and roll.

Ingredients: Steric Acid, Deionize Water, Glycerine, Potassium Hydroxide (%45), Oleum Coco, Propylene Glycol, Sodium Hydroxide (%15), Fragrance, 2 Bromo 2 Nitropropane-1, 3 Diol Methylchloroisothiazolinone, Methylisothiazolinone.

Shaving Gel

Low foam gels allow for precision shaving so you can see exactly what you are doing-you will be shaving with pin-point accuracy - goatees, moustaches or even certain "sensitive" parts, you now have the tool for the job. Dampen skin, apply gel generously and you are ready to rock and roll.

Ingredients: Aqua, Glycerin, Aloe Barbadensis (Leaf) Extract, Sodium Laureth Sulfate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Cocamidopropyl Betaine, Triethanolamine, Eucalyptus Globulus (Leaf) Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Mentha Piperita (Peppermint) Leaf Oil, Benzophenone-4, Triethylene Glycol, Benzyl Alcohol, Propylene Glycol, Methylchloroisothiazolinone, Methylisothiazolinone, Sodium Chloride, Sodium Hydroxide, Magnesium Nitrate, Magnesium Chloride, Potassium Sorbate, Citric Acid, CI 60730, CI 42090.

Shaving Balm

No shave is complete without the application of a moisturising balm to soothe skin, reduce redness, razor burn and heal any painful nicks and cuts. To give skin some restorative TLC with these post-shave wonders.
